

DROP A DECADE – WITHOUT SURGERY

New anti-ageing treatments at DestinationSkin

Take years off your skin with advanced anti-ageing treatments available now at DestinationSkin clinics nationwide.

THE CACI ULTIMATE ANTI-AGEING TREATMENT £120

Visibly reduce fine lines and wrinkles with this ultimate anti-ageing treatment, developed to firm, plump and soften the skin. Low and high frequency electrical impulses stimulate and train the muscles, redefining facial contours and smoothing wrinkles.

Treatment includes:

- Microdermabrasion with LED photo therapy
- Microcurrent toning
- Wrinkle comb (combination of LED photo stimulation and high frequency electrical stimulation)
- Dermal massage with intense hydration

SKIN TIGHTENING from £350*

Tone, lift and tighten your skin with infrared technology. The Titan Procedure™ is a safe, non-surgical process that treats lax and redundant skin throughout the body, including the abdomen, thighs, arms, face and neck and can stimulate long-term collagen rebuilding. Ideal as a post-weight loss, post-pregnancy or anti-ageing treatment.

*Available only at DestinationSkin Westfield, London

INJECTABLES from £250

Erase fine lines and wrinkles with wrinkle relaxing injections and skin fillers. Administered only by highly qualified medical practitioners, injectables are the perfect finishing touch to any anti-ageing treatment.

Wrinkle relaxing injections (commonly referred to as Botox) soften the expression lines on your face by reducing the muscle movement. They can be used on the forehead and above the nose, as well as around the eyes and lips.

Skin fillers are used to reduce the appearance of wrinkles and acne scars, improve facial contouring or create fuller lips. For use on face, neck, décolletage or backs of hands.

DestinationSkin offers a wide range of the latest proven non-surgical treatments for younger looking skin and smoother clearer complexions, provided by expert consultants in modern, comfortable high street locations. Laser, IPL, infrared and injectable technologies are used for a wide range of treatments including laser hair removal; infrared skin tightening; red and blue vein removal; skin imperfections removal; acne and problem skin treatment; sun damage and age spots removal; wrinkle relaxing injections; skin fillers; non-surgical face lifts; anti-ageing collagen boosters; microdermabrasion, skin peels and resurfacing. DestinationSkin also offers the latest and some exclusive pharmaceutical based skin care and cosmetic products, available in the clinics and online at DestinationSkin.com

DestinationSkin currently has 10 clinics nationwide.
