SAFETOX Anti-ageing headband £199*

SAFETOX Beauty is an electronic device that acts directly on the muscles responsible for causing wrinkles without the use of needles or aggressive treatments. It works by relaxing these muscles, altering the muscular balance and resulting in facelift-like effect.

A 5-minute session each day over a period of few weeks is enough to educate your muscles and restore the muscular dynamics of a youthful face: wrinkles are reduced; the face opens up and appears radiant.

SAFETOX can either replace to be used in conjunction with other anti-ageing techniques (Anti-wrinkles creams, Botox, Hyaluronic acid, Collagen, etc.) to enhance their effect.

Reduces wrinkles by up to 65% in a few weeks

*Available only at DestinationSkin Westfield, London
